Re: Request for review of Remedial Investigation Report
 and State ARARs, Scientific Chemical Processing ("SCP")
 Site, Carlstadt, New Jersey

Dear Ms. Dower:

By copy of this letter, I am sending the Remedial Investigation Report (RI) for the SCP-Carlstadt site to Sabrina Mih, of your staff. This report was prepared for the Responsible Parties by Dames & Moore, and contains the results of field work conducted during 1987. Dames & Moore is presently conducting a Feasibility Study for "on-site" remedial action, and will also be installing additional monitoring wells as part of a supplemental "off-site" groundwater and surface water study.

In addition, I am requesting that you contact me as soon as possible so that we can arrange a meeting to discuss the site-specific ARARs. It is critical that these ARARs be provided immediately so that Dames & Moore can utilize them in the Feasibility Study.

Any comments you have on the attached RI report will be appreciated. I would like to receive comments by May 20, 1988.

If you have any questions, please feel free to call me or Janet Feldstein, of my staff, at (212) 264-2646.

Thank you for your assistance.

Sincerely yours,

Raymond Basso, Chief
 Northern New Jersey Compliance Section, ERRD
